### Como Leer las Tarifas Fijas de 2010 de Médicos y Otros Profesionales de la Salud de Medicare

En el catálogo **no se encuentran** incluidas las tarifas por medicinas inyectables, tarifas predominantes, códigos con precios fijados por el contratista de Parte B, códigos de procedimientos sin cobertura o agrupados. El catálogo de tarifas está diseñado para hacer saber a los médicos, otros profesionales de la salud, y suplidores cuyos pagos están ligados al catálogo de tarifas, de la cantidad que Medicare estará dispuesto a permitir por servicios con cobertura pagados según el catálogo de tarifas. El catálogo de tarifas informa también a los no participantes (en el programa de Medicare) de cuanto pueden cobrar legalmente cuando presentan una reclamación no asignada. La cantidad permitida por Medicare es la menor entre lo que se cobra en el momento y la cantidad mostrada en el catálogo de tarifas. Los servicios se encuentran listados por códigos de procedimiento y modificadores *CPT* y nivel H (alfa numérico) según corresponda. Se ha utilizado los códigos HCPCS actualizados. Damos a continuación una breve explicación de cada campo del formulario:

PAR ANESTHESIA	Son los factores de conversión de anestesia del médico para proveedores participantes, por servicios prestados entre el 1 de junio y el 30 de noviembre de 2010.
NON-PAR ANESTHESIA	Son los factores de conversión de anestesia del médico para proveedores no participantes, por servicios prestados entre el 1 de junio y el 30 de noviembre de 2010. Los factores de conversión para proveedores no participantes, son un 5% menos que los de los participantes.
NON-MEDICALLY DIRECTED CRNA	Son los factores de conversión de anestesia sin supervisión médica para enfermeras certificadas como anestesiistas (CRNA), por servicios prestados entre el 1 de junio y el 30 de noviembre de 2010. Los factores de conversión de 2010 para CRNA sin supervisión médica son iguales a los de los médicos participantes.
CODE/MOD	Los códigos de procedimientos y modificadores (si corresponde) utilizados para documentar los servicios prestados. Los códigos de procedimiento que pueden ser definidos en componentes separados, profesionales, técnicos o globales, tendrán un modificador 26 indicando el componente profesional y un modificador TC indicando el componente técnico. Para procedimientos sin modificadores, esto indica una de dos cosas: ya sea que la entrada sin modificador representa el componente GLOBAL para un código de procedimiento que puede ser definido como global, profesional o técnico; o bien que el procedimiento representado por el descriptor pertenece a un servicio global, profesional o técnico que no puede ser definido más allá con componentes separados.
PAR FEE SCHEDULE	Es la cantidad del catálogo de tarifas médicas para proveedores participantes, por servicios prestados entre el 1 de junio y el 30 de noviembre de 2010.
NON-PAR FEE SCHEDULE	Es la cantidad del catálogo de tarifas médicas para proveedores no participantes, por servicios prestados entre el 1 de junio y el 30 de noviembre de 2010. La cantidad del catálogo de tarifas médicas para proveedores no participantes, es un 5% menos que la de los participantes. El diferencial de 5% entre participantes y no participantes, anteriormente se aplicaba solamente a los servicios del catálogo de tarifas facturados por un médico, ahora se aplica a todos los servicios pagados según el catálogo de tarifas médicas, sin considerar la entidad que factura el servicio.
LIMITING CHARGE	Para proveedores que no son participantes entre el 1 de junio y el 30 de noviembre de 2010, esta cantidad representa el límite de lo que puede ser cobrado legalmente, a un beneficiario de Medicare, en una reclamación no asignada. Tales límites no son aplicables a cobros hechos por médicos participantes ni por servicio alguno facturado en base asignada por médico no participante. <i>Limiting charges</i> (límite de cobro) no se utilizan para determinar los pagos, pero han sido concebidos para minimizar la responsabilidad del beneficiario en reclamaciones no asignadas. <i>Limiting charges</i> son calculados al 115% de la cantidad que corresponde al no participante indicada en el catálogo de tarifas, redondeada al centavo más próximo. Note que el 115% es el cobro máximo. Cuando se utiliza reducciones especiales de pago para calcular la cantidad realmente permitida, el <i>Limiting charge</i> es igual al 115% de la cantidad permitida calculada.
*FACILITY FEE SCHEDULE	Las cantidades de <i>Fee Schedule</i> y <i>Limiting charge</i> marcadas con un simple asterisco (*) indican la cantidad de la tarifa de pago del establecimiento. Estos servicios son prestados en forma primaria a pacientes hospitalizados o ambulatorios en un establecimiento hospitalario, sala de emergencia de un hospital, centro de cirugía ambulatoria, centro de enfermería especializada, hospital siquiátrico y establecimiento de rehabilitación total para pacientes internos o ambulatorios.
NON-FACILITY FEE SCHEDULE	Las cantidades de <i>Fee Schedule</i> y <i>Limiting charge</i> que no están marcadas con asterisco (*) indican la cantidad de la tarifa de pago que no corresponde a un establecimiento. Estos servicios son prestados en forma primaria en el consultorio del médico o laboratorio.
C – OPPS CAP	Cuando las tarifas del calendario y límites de cantidad de cobro contienen una "C", significa que la cantidad de pago por el componente técnico está limitada a la cantidad de Outpatient Prospective Payment System (OPPS).

Este artículo contiene los factores de conversión para su uso en el cálculo del pago de servicios de anestesia (códigos de procedimientos 00100 hasta 01999) para las fechas de servicio del 1 de junio hasta el 30 de noviembre de 2010.

## Factores de Conversión de Anestesia de Junio - Noviembre 2010 para Puerto Rico

Los factores de conversión para calcular el pago de servicios de anestesia (códigos de procedimientos 00100 hasta 01999) para las fechas de servicio del 1 de junio hasta el 30 de noviembre de 2010, como sigue:

Médico Participante	Médico no Participante
20.10	19.10

Los factores de conversión para enfermeras graduadas certificadas en anestesiología (CRNA) son idénticas a los factores de conversión de anestesia del médico participante para cada pago de localidad.

Los factores de conversión para CRNA médica mente dirigidos (para dirección médica del médico y los CRNA dirigidos médica mente) están basados en un 50 por ciento de la suma de las unidades de base de anestesia y unidades de tiempo, multiplicadas por el factor de conversión de localidad del médico participante apropiado (i.e., 50 por ciento de la suma (unidades base + unidades de tiempo) x el factor de conversión de localidad = cantidad de anestesia). La dirección del médico del 50 por ciento de póliza de pago aplica si un CRNA (o asistente de anestesia) y un anestesiólogo están envueltos con el mismo caso.

### Cargo Limitado para Anestesia

El cargo limitador para servicios de anestesia no asignados es determinado como sigue:

**Paso 1:** Determine la cantidad para el servicio de anestesia.

Utilice esta fórmula para los servicios realizados personalmente por el médico:  
(unidades de base + unidades de tiempo) x factor de conversión de localidad del médico no participante.  
Utilice esta fórmula para la reclamación del médico para servicios de dirección médica del médico --  
[.5 x (unidades de base + unidades de tiempo)] x factor de conversión de localidad del médico no participante.

**Paso 2:** Multiplique el resultado del cálculo de arriba por 1.15 para determinar el cargo limitador.

**Nota:** El cargo limitado no se aplica a CRNA o a reclamaciones de anestesiista; la asignación es obligatoria en estas reclamaciones.
